DETAILED ACTION

Allowable Subject Matter

Claims 1,2,5-10,13-19 and 22-25 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior fails to teach an optical position-tracking system and its method, among other features, comprising an optical device for generating an incident light beam and a reference light from a light beam having a plurality of wavelengths; a light beam steering device for sweeping the incident light beam through an angular range to cause a reflection of the incident light beam by a target, wherein the reflection of the incident light beam is directed to interfere with the reference light beam to form an interference light beam; and an absolute position of a target is determined using an interferometric technique utilizing a plurality of wavelengths of a light beam and an angular value of the incident light beam, and a reference light beam and wherein the angular value depends on a reflection of the light beam.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
